

Cybercrime

You're a target – are you covered?

Cyber attacks are the fastest growing crimes throughout Australia and across the world. And with the majority of businesses not insured against cyber attacks, the effect can be crippling.

1/3 of businesses attacked have fewer than 250 employees

84% of compromises occur in less than 24 hours from initial breach

Cybercrime cost to the Australian economy every year

Average cost of a breach in Australia

1 in 392 emails contain a phishing attack

500 cybercrimes reported every week in Australia

Without Cyber insurance you are not covered:

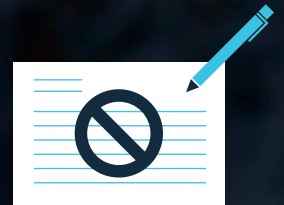

Data and privacy breaches are not covered by standards property insurance policies

Operating systems are critical for your day-to-day business but their downtime is not covered by standard business interruption insurance

The cost of managing your business reputation in the event of a data or security breach is not covered by any other insurance policy

The expense of providing written notification to your clients and customers of a privacy breach are not covered
